Welcome to the Shahdag National Park

This small development of Eco Lodges is centrally situated in the Shahdag National Park.

Guests will be accommodated in comfortable log cabins with wooden hot tubs and log burners combining rustic charm with traditional Azeri hospitality and delicious national cuisine.

The Caucasus with its pristine mountain climate, awe inspiring panoramas, unspoiled forests and alpine pastures provides a rich habitat for a multitude of wild birds including golden eagles and mammals such as wild boar, golden jackal, chamois, forest cats, wolves and bears.

Our experienced English speaking guides will explore with you the flora and fauna of this truly special National Park.

The emphasis for these Eco Breaks is on sustainability. Lodges are built with local timber and powered via solar panels; water is sourced from mountain streams and filtered within the small development. Local guides and domestic staff are given valuable employment to enable them to stay close to their villages.

For the thrill seekers there is mountain climbing or cycling, quad biking, a guided wild life spotting trek or Nordic skiing in season. Guests may wish to simply enjoy the peaceful setting, unspoiled views and clear mountain air to recharge their batteries

In the evening, in true Azeri custom, dinner will be a feast, with course after course of traditional delicious dishes, complimented by local wine and tea. At the end of a perfect day guests can look forward to star gazing from their very own wooden hot tub or relaxing in front of their blazing log burner.

Midweek, weekend breaks and two centre breaks combining Shirvan National Park Eco Breaks and Shahdag are available.

Eco Breaks in the Shahdag National Park Include:

- Amazing wild life spotting
- Meal packages inclusive of traditional breakfast, packed lunches and dinner
- Local beer, wine and tea served with meals
- Transfer from Baku
- English speaking local guides
